- Training or competency checks where agreed
- You make the final choice

Carer checks

- Identity and right-to-work checks

- Suitability for your needs

How it works

1. Tell us what you need
2. Meet suitable carers or PAs
3. Choose and agree directly

Our introduction fee is confirmed in writing beforehand. Carer charges are agreed separately. You manage ongoing support.

Our role: We introduce carers and PAs. We do not employ them, manage rotas, direct or supervise personal care, or provide or manage regulated personal care through this agency.

Important: Screening cannot eliminate every safeguarding risk. Employment status depends on actual working arrangements, not labels.
